PROFESSIONAL SUMMARY

Detail-oriented Analyst with a strong background in financial analytics and hands-on experience in data modeling, ETL development, and machine learning. Skilled in SQL, data visualization, and business intelligence tools to support data-driven decision-making. Passionate about automating processes and leveraging analytics to drive business insights and operational efficiency.

EXPERIENCE

L3HARRIS TECHNOLOGIES, *Senior Analyst, Program Finance*

January 2021 – Present

- Leverage various software tools, including Cobra, PeopleSoft, and Excel, to track and analyze program costs across multiple projects valued at over \$350 million.
- Develop data-driven reports and visual analytics to monitor and communicate weekly fluctuations in cost and labor metrics
- Facilitate weekly Earned Value Management System (EVMS) meetings, leveraging data analytics to compare labor and cost metrics against forecasts.
- Led analysis efforts for a \$40 million program for six weeks, stepping in as the interim lead analyst.
- Automate multiple weekly and monthly files, saving time and increasing efficiency.
- Execute various ad hoc tasks, such as developing funding forecasts and generating reports.

JUSTICE ADMINISTRATIVE COMMISSION, *Budget Analyst*

July 2016 – January 2021

- Conducted budget and expenditure analyses for more than 50 State agencies to facilitate accurate forecasting.
- Designed and delivered comprehensive training presentations to State Attorney's Offices, Public Defender's Offices, and other judicial related State entities.
- Optimized budget transaction processing by developing and implementing a streamlined workflow, increasing efficiency by 80% within the State's accounting system.
- Coordinated and consolidated various budget and forecasting documents from more than 50 State agencies to produce and submit the nearly 3,000-page Legislative Budget Request to the Governor's Office.
